Health and wellbeing is at the forefront of the Lotus Cafe. We strive to serve you delicious vegetarian food that your body will thank you for! We use healthy alternatives and organics where possible. Many of our ingredients come fresh each morning from our organic vegetable garden, including fruits, veggies, herbs and edible flowers.

We can cater to many dietary needs, just ask our friendly team.

Everything we serve you is compostable, we do not use plastic! This includes plates, cutlery, cups, lids, napkins, and of course, all your food scraps. At the end of your meal please place all your compostable items and food scraps into the large black composting tubs and place your recyclables in the recycling bin at the cleaning station, located to the left of the cafe. We have a general waste bin for any other rubbish you may have. If you are unsure, check out the photos at the cleaning station or ask our friendly team.
